Cracow, Poland

Dear Dr. Jurczyszyn:

I want to thank you for your visit to the Myeloma Division at the John Theurer Cancer Center at Hackensack University Medical Center on November 1-21, 2012. It was a learning experience to have your insight into the management and care of our patients with plasma cell dyscrasias. After evaluating the patients together, we were able to exchange ideas on the disease status, response to therapy, and developing optimal treatment decisions. This will lead to improvement in care of these oft-times complicated and ill patients.

We look forward to you visiting our Myeloma Division again.

With best regards,

David H. Vesole, MD, PhD
Professor of Medicine, UMDNJ
Co-Chief, Myeloma Division
Director, Myeloma Research
